

JULIETTA STANISLAUS

UI Architect | Senior Front-End Developer

 (+91) 9698320503  julietta.stanislaus@outlook.com  <https://www.linkedin.com/in/julietta-stanislaus/>  Trichy, Tamil Nadu, India

SUMMARY

UI Architect and Senior Front-End Engineer with 7+ years delivering scalable, performance-driven, accessible web and e-commerce interfaces. Expertise in design systems, component-driven architecture, and front-end performance optimization. Proven ability to lead UI strategy, enforce WCAG compliance, and translate Figma designs into pixel-perfect, production-ready UI systems.

CORE EXPERTISE

- **UI Architecture & System Design:** Scalable UI structures, component-based architecture, reusable design systems
- **Front-End Engineering:** HTML5, CSS3, SCSS, JavaScript, jQuery, modular and maintainable UI development
- **Frameworks:** React, Tailwind CSS, Bootstrap, Angular (Basic), mobile-first responsive design
- **UI/UX & Design:** Figma, wireframes, design-to-code transformation, pixel-perfect implementation
- **CMS & Platform:** WordPress (Elementor, themes, plugins), corporate websites, product flows and conversion-driven UI
- **Accessibility & Compliance:** WCAG standards, accessibility-first architecture approach

SKILLS

- **Languages:** HTML5, CSS3, SCSS, JavaScript (ES6+), jQuery
- **Frameworks:** Tailwind CSS, Bootstrap, React, Angular
- **Design & UI Tools:** Figma for wireframing
- **Platforms:** WordPress, E-commerce (UI/UX)
- **Architecture:** Design Systems, WCAG 2.1, Responsive/Mobile-First
- **Workflow:** Agile, Code Review, UI Optimization, Figma-to-Code

WORK EXPERIENCE

Developer Lead / Account Manager - UI/UX Solutions | Vinsinfo, Chennai, TN, India

Apr 2024 - Present

(Progressed from Developer Lead → Account Manager – UI/UX)

- Architected scalable front-end systems and reusable component libraries for enterprise and e-commerce platforms
- Led end-to-end UI development using React, guiding teams from Figma designs to pixel-perfect implementation
- Optimized CSS, assets, and rendering pipeline improving Core Web Vitals and cross-device performance
- Implemented WCAG 2.1 accessibility standards and enforced UI coding guidelines across teams
- Mentored UI developers, conducted code reviews, and drove improvements in team productivity
- Collaborated with UX and product teams to design and deliver corporate websites and WordPress platforms end-to-end
- Contributed to UI strategy and decision-making at project and account level, aligning technical solutions with business goals

Associate Developer Lead | Vinsinfo, Chennai, TN, India

Apr 2023 - Mar 2024

- Owned front-end architecture, defined UI standards and coding guidelines and led UI strategy for responsive applications
- Built reusable component systems, improving development velocity and UI consistency across concurrent projects
- Profiled render bottlenecks, optimised asset delivery pipelines, and improved Lighthouse scores across production applications

Senior UI UX Developer | Vinsinfo, Chennai, TN, India

Apr 2021 - Mar 2023

- Developed responsive, pixel-perfect interfaces using HTML5, CSS3, SCSS, JavaScript, Bootstrap, and Tailwind CSS
- Built and customized WordPress sites using Elementor across multiple projects, including theme development, plugin integration, and UI customization
- Implemented interactive UI features using JavaScript and jQuery, converting Figma designs into production-ready components

Early Career Growth - Front-End Development | Vinsinfo, Chennai, TN, India

Sep 2018 - Mar 2021

(Progressed from Associate Developer → Software Developer)

- Trained and mentored junior developers in HTML5, CSS3, Bootstrap, and JQuery
- Reviewed assessments and enforced UI coding standards and best practices
- Contributed to responsive UI development and WordPress customization

LEADERSHIP & ARCHITECTURAL RESPONSIBILITIES

- Designed and owned front-end architecture for scalable web applications
- Defined UI standards, coding guidelines, and reusable component structures
- Led UI strategy for responsive and performance-optimized applications
- Collaborated with UX, product, and engineering teams for system-level decisions
- Mentored UI developers and enforced best practices across teams
- Established design-to-development workflows for faster delivery cycles
- Improved accessibility, usability, and performance across enterprise applications

EDUCATION

Bachelor of Electronics and Communication Engineering

Jun 2014 - Oct 2018

K.Ramakrishnan college of technology – Trichy

PROJECTS

Project: Digital Collaboration Platform – Angular, Typescript, SCSS

- Designed UI/UX for a dynamic platform with drag-and-drop list management functionality.
- Created responsive layouts and interactive user flows for improved usability and engagement.
- Worked on design structure, component alignment, and overall user experience optimization.

Project: Brand Portfolio Website – WordPress with Elementor

- Designed and developed a complete brand portfolio website using WordPress and Elementor.
- Built and managed more than 50 responsive pages, including landing pages, service pages, galleries, blogs, and contact sections.
- Implemented reusable design sections, responsive layouts, and brand-focused UI components.

UI/UX Audit's

- Conducted detailed UI/UX audits for e-commerce platforms, web applicates, business sites to identify usability and conversion-related issues.
- Reviewed user journeys, CTA placements, layout structure, and engagement flow across the platform.
- Shared recommendations and improvement strategies to enhance user interaction and increase conversion opportunities.

Project: Luxury Hospitality & Resort Website – WordPress, HTML5, JQuery, CSS3

- Designed and developed the complete website experience for a luxury hospitality and resort brand.
- Built the entire platform using WordPress with custom page structures, responsive layouts, and brand-focused UI sections.
- Created visually rich landing pages, accommodation showcases, gallery sections, contact flows, and booking-oriented CTA experiences.
- Implemented responsive UI/UX across desktop, tablet, and mobile devices to ensure a seamless browsing experience.
- Managed complete end-to-end website execution, including design implementation, page creation, optimization, and deployment coordination.

Project: Digital Interaction Platform – React, Typescript, Tailwind

- Designed and developed a dynamic interface featuring drag-and-drop list management with intuitive user interactions.
- Built responsive UI components and interactive layouts using React with TypeScript for scalable front-end structure.
- Focused on reusable component architecture, state-driven UI behavior, and smooth user experience across devices.

Project's: Multi-Client Web Development Portfolio – HTML5, CSS3, JQuery, Bootstrap4

- Delivered 15-20+ websites for multiple clients across various industries including corporate, service-based, and portfolio domains.
- Handled complete end-to-end development from UI/UX design to deployment and maintenance.
- Built responsive and SEO-friendly websites using modern front-end practices and CMS-based workflows.
- Created reusable design patterns and scalable page structures to speed up delivery across multiple projects.
- Ensured cross-browser compatibility, mobile responsiveness, and performance optimization across all client sites.
- Collaborated with clients to translate business requirements into functional and visually consistent web experiences.
